

Anatole Krattiger works on strategic and intellectual property aspects related to ag-biotechnology and global health at the crossroads of development, government, science, businesses, and philanthropy. He works and teaches at Arizona State University and Cornell University, and consults worldwide. He became a farmer in Switzerland where he also studied agronomy, obtained a masters and PhD in plant breeding/genetics from Cambridge University, England, worked at CIMMYT in Mexico, served as Executive Director of ISAAA, and as Executive to the Humanitarian Board for Golden Rice. He is a member of the Advisory Board of the Franklin Pierce Law Center, founding Board Member of the Black Sea Biotechnology Association, editor-in-chief of Innovation Strategy Today, and served as editor-in-chief to the global resource titled Intellectual Property Management in Health and Agricultural Innovation: A Handbook of Best Practices.
