BVA 2014  
7-9 April 2014  
Bibliotheca Alexandrina,  
Alexandria, Egypt

# Welcome to BVA 2014

Ladies and Gentlemen,

We are thrilled to announce that registration for BioVision Alexandria 2014 Conference is open. The Conference will take place at the Bibliotheca Alexandrina on 7-9 April 2014.

BVA 2014 will be a special edition of BVA series as it marks 10 years since the launch of BVA in 2004.

The Conference theme for BVA 2014 is New Life Sciences: The Next Decade, highlighting the incredible leaps forward in science for the past decade and raising the questions: What is next? How many other astounding scientific discoveries will be made by the end of the next decade? How will they reshape and change the world we now know?

You can always follow the Conference progress through the general BVA and BVA 2014 websites, or through the following issues of this Newsletter. You are always welcome to join us by email, phone or social media, as listed on the last page of this Newsletter. Please subscribe in the Newsletter to ensure receiving the following issues (<http://www.bibalex.org/biovisionalexandria/Newsletter/NewsletterArchive.aspx>).

Looking forward to meeting you all at BioVision Alexandria 2014 Conference in Bibliotheca Alexandrina next April 2014.

BioVision Alexandria team

**BVA**  
Team

# Bio Vision Alexandria

## BioVisionAlexandria

**BioVisionAlexandria (BVA)** is an international conference organized by the Bibliotheca Alexandrina. The Conference focuses on three major themes: Health, Food and Agriculture, and Environment.

### About BVA

BioVisionAlexandria is an important gathering that brings together distinguished speakers and Nobel Laureates from the four corners of the globe, through rich discussions that commemorate science and the finest achievements of the human intellect. It includes representatives of the greatest minds in the realms of industry, science, policy-making, media and civil society. The ultimate goal is to provide a platform for exchange of information and dialogue so as to explore the different ways in which life sciences can help meet the challenges facing us in the 21st century; a vital step for global economic development to improve the quality of life for all. BioVisionAlexandria aims to increase the participation of developing countries in this important global dialogue. As the BA is a key player in building bridges and fostering dialogue, BioVisionAlexandria presents a unique opportunity for North-South collaborations by introducing new scientific knowledge to the South.
