

Sustainable Development

A Reader's Guide to Selected Sources

Updated by:

Ayman Saleh
Manar Badr

October 2007

The Bibliotheca Alexandrina reference librarians have prepared this guide of selected materials on *Sustainable Development* to assist users in finding primary resources within the library. This guide is not intended to be comprehensive but rather to provide a convenient starting point for research.

Sustainable Development is an approach to economic planning that attempts to foster economic growth while preserving the quality of the environment for future generations. The concept of sustainable development proved difficult to apply in many cases, primarily because the results of long-term sustainability analyses depend on the particular resources focused upon.¹

How to Search the Catalog

Materials on *Sustainable Development* may be found by searching the Bibliotheca Alexandrina Online Public Access Catalog (OPAC) using the following subject headings:

- Sustainable Development
- Environmental Economics
- Environment Conservation
- Natural Resources -- Management

- Développement durable
- Economie de l'environnement
- Environnement -- Protection
- Gestion des ressources naturelles

- التنمية المستدامة <
- البيئة -- اقتصاديات <
- حماية البيئة <
- الموارد الطبيعية -- اقتصاديات <

How to Find Books on the Shelf

To locate books on *Sustainable Development*, you may use the following call numbers:

- 333.7 Natural Resources and Energy
- 338.9 Economic Development and Growth
- 363.7 Environmental Problems

For further assistance, you may ask a reference librarian in the Main Reading Area or email us at: infobib@bibalex.org

¹ "Sustainable Development", under "Environmental Law", **Encyclopedia Britannica Online**, academic ed., <http://www.search.eb.com/eb/article-224618>
